AMERICANS CONTROL IN LUXEMBURG

Duchess Stands by Side of General Pershing in Grand Review

(By Associated Press)

Luxemburg, November 21. —With General Pershing, the American commander-in-chief, at her side, the youthful Grand Duchess of Luxemburg from her palace watched the American troops march into her capital today.

Twenty-four hours earlier the Grand Duchess had seen the long columns of grey clad soldiers depart for their home country after the occupation of her Duchy

for more than four years.

The American army of occupation under General Dickman tonight controls every road, city and village in Luxemburg. The Grand Duchess and the members of her cabinet expressed gratification that Americans had come to take the place of those whom they had been forced to tolerate for so many years.

Popular approval was expressed in a great demonstration when the people sighted General Pershing and again when the dusty columns of American soldiers moved through the streets.

London Paper Questions Whether Former Emperor Has in Fact Abdicated

(By Associated Press)

London, November 22. —The Daily Mail attributes to a "high official of the British government" the statement that "William Hohenzollern is still German emperor and King of Prussia as far as the British government is informed, and apparently is waiting for something to turn up."

"The Berlin government," the official added, according to the Daily Mail, "has not made any communication to the allies or the United States notifying us of his abdication. We think it almost certain that if the abdication occurred notification would have been sent at least to the United States."

ABANDON PROBE OF LA FOLLETTE

Chairman Pomerene Will Present a Minority Report and Insist on a Probe

(By Associated Press)

Washington, November 22. — Investigation of the alleged disloyal speech of Senator LaFollette at St. Paul more than a year ago was abandoned today by the Senate elections committee on a vote of 9 to 2.

Committee members said that, however much the speech of Senator LaFollette on which the proceedings were brought, might be deplored, there was no basis for expulsion from the Senate. Senator Pomerene, chairman, and Senator Walsh, of Montana, both Democrats, voted against dismissal of the charges.

A contest may develop in the Senate over adoption of the majority report, which will be submitted when the Senate reconvenes December 2 by Senator Dillingham, Republican.

Chairman Pomerene announced he would submit a minority report and might contest adoption by the Senate of the dismissal recommendations.

ON THE WAY DESTINATION NOT KNOWN

All the Hohenzollerns Not Yet Gone Are Preparing to Leave Germany

(By Associated Press)

Amsterdam, November 22. —All members of the Hohenzollern dynasty will leave Germany in the near future, according to a Frankfort Courant. Their destination it adds, is not yet known.

So far as is known the only members of the Hohenzollern dynasty who already have left Germany are William Hohenzollern, the former emperor, and his eldest son, Frederick William, former crown prince. Both are in Holland.

The ex-emperor has five other sons, Eitel Frederick, Adalbert, August William, Oscar and Joachry. His only daughter, Victoria Louise, married the Duke of Brunswick in 1913.

"No abdication document bearing the Kaiser's signature is in existence as far as the outside world knows—nothing but the perfunctory statement of Prince Maximilian in which he used the words 'thronen versicht' meaning renunciation of the throne and 'abdankung' meaning abdication.

"Wilhelm, therefore, still regards the throne as his and the world must contemplate the probability that he expects to return."

GREENFIELD STILL IN GRASP OF FLU

Greenfield is still in the grasp of the influenza, and the situation, according to the Greenfield Republican is as bad at the present time as it has been at any time during the epidemic.

All places of public assembly in Greenfield have been closed for the past week or two, and indications are that they will remain closed for some time to come, the ban being lifted prematurely some two weeks ago.

Regarding the epidemic the Republican says:

"Many new cases were being reported, and there is said to be more cases of pneumonia at this time than was the case earlier in the epidemic. Quite a number of deaths occurred the first days of the week from pneumonia, resulting from the influenza. Last Saturday steps were taken to close up all public places which had opened up a few days previously and Mayor Ferneau declared that they would remain closed now until danger from the spread was over.

"This is the seventh week of the closing from the influenza, the churches having closed on October 5th, and that same day Mayor Ferneau issued a proclamation closing the theaters and all public places. The schools were closed by an order of the board of education, issued on October 5th. The present outlook does not indicate the situation will be such as to warrant opening of the schools or public places for at least another week."

GREAT WORK RED CROSS IN FAYETTE

Annual Report Shows Record of Achievement of Which Every Fayette Countian May Well Be Proud

Receipts Total \$18,585.36 and Expenses During the Year Reach \$17,157.58

The annual report of the Fayette County Chapter of the American Red Cross lays bare the remarkable work of the organization for the fiscal year just ended, and the record of achievement is one which should be most gratifying to every Fayette county citizen because it discloses a spirit of sacrifice, patriotism and a genuine love for humanity which will ever be one of the county's golden pages to be scanned with pride by future generations.

The report gives just a hint of the long days of hard work, the sacrifice, the love, care and planning which made the result possible, and bears mute testimony of the great humanitarian spirit and patriotic pride of the women of the county in particular, to say nothing of the helpful hand ever extended by the men.

The Surrender in The North Sea

When, in the early hours of Thursday morning, the German fleet of battleships and armored cruisers steamed out of Keil harbor into the misty vastness of the Great North Sea, passed in humiliating review before the majestic cordon of battleships of the allied and associated nations drawn up in battle array and stretching more than fifty miles in line, hauled down their flags and surrendered, the greatest spectacle, perhaps, in all history was concluded.

Many navies have been destroyed in battle at sea, many gallant ships have been compelled to strike their colors in combat, but only once before, and that in ancient history, do we find anything approaching a parallel for the magnificent tragedy occurring on Thursday morning.

For years the Kaiser has blatantly announced to the world that Germany's future was on the sea, for years Germany has been spending hundreds of millions of dollars on her navy in the effort to wrest supremacy of the boundless oceans from the "Mistress of the Seas" and without the glory of a combat at sea the great navy hoists the white flag and passes into the control of those nations which it was created so painstakingly to destroy.

Journalists, artists and motion picture men were stationed on the allied warships to perpetuate, with pen and brush and camera, the scene that will go down in all history.

It is for Great Britain, if she will, as Mr. Frank Simmons, the war correspondent, points out, to write at the peace conference the future law of the sea and to announce what shall be the future of the world on the sea, as far as battle craft are concerned.

Napoleon announced after his imprisonment at St. Helena that but for Great Britain he would have been ruler of a mighty empire in the East, but wherever he went he found British ships.

Germany's dream of world conquest might have succeeded too, or the struggle prolonged indefinitely but for that mighty fleet which took up its long vigil in the North Sea. From the instant Great Britain's grand fleet took its position and established the blockade Germany's doom was sealed. Guarding the coast lines, enforcing the blockade rigidly those bull dogs of the sea held the Huns by the throat while the world prepared for battle on the land, convoyed twenty-two millions of fighting men from the most remote lands of the globe, drove German commerce from the ocean and saved civilization.

The closing scenes were enacted Thursday morning when the German fighting fleet struck its colors without risking a decisive contest.

What attitude will great Britain assume at the peace council when the demobilization of the armies and navies of the world is urged?

Will Great Britain consent to surrender the only weapon that saved her and civilization from destruction?

The freedom of the seas belongs now to humanity, secured and guaranteed by the navies of the allied powers under the leadership of Great Britain. The last of the pirates who would have destroyed that freedom surrendered on Thursday morning when Germany's navy struck its colors behind the misty curtain of the great North Sea.

Turkey's Future

While we have not heard as much about it as some of the other, but scarcely less important, problems which will confront the peace commissioners, the future of Turkey is a subject which will require the attention of the men who will gather to frame the final treaty of peace.

Turkey, of all the nations of the earth, Germany not excepted, has proven the most consistent and determined outlaw among the nations.

The Ottoman empire as a nation will be as much a menace to the humanity, as much the cruel fiend among the nations, driven into Asia as it has been in Europe.

As a nation Turkey has furnished abundant and horrible proof of its unfitness for national life and Turkey as a nation should be destroyed. The Turks should be, of course, assigned a land in which to live, but it should be under the close surveillance of one of the great civilized nations—as a colony or as a dependency. Turkey, permitted to live as an independent nation, is far more of a menace than an armed and drug-crazed savage.

Turkey must be driven out of Europe of course, but Turkey must be driven out of the brotherhood of nations and must exist as a dependent and guarded nation, incapable of committing further barbarities.

Turkey as a nation is impossible and an ever present menace to the world. We have had enough of the preservation of the Ottoman empire in Europe or anywhere else. With Turkey an independent nation the nations of the world are permitting the most barbarous force in all history to run riot.

POEM FOR TODAY

TO AMERICA

Great Daughter of a Mother-love nature and freg,
Married unto Liberty,
Cleave, as is meet, to thy new love
and share it with none other.
But in that new experienced ecstasy,
forget not now thy Mother!

And be not weaned away by reason
of a former strict restraint—
'Twas but a royal Hunnish taint.
Open wide thine heart and welcome
her who bleeds—
Nay, who has bled for four long
years, and saved thee by her
deeds!

The glamour of a foreign league, the
thrill of foreign history joined
with yours
In foreign helped successful wars—
'Tis great; 'tis good; forget it not;
cherish it with deep sincerity,
But let not sentiment o'erstep "the
tie that binds" in blood-related
verity!

The Mother-love still lives, 'tis ever
aiming at thy heart.
Free Daughter, play the daughter's
part!
Cast far away misunderstanding or
remembered hate—
'Tis now no longer '76, for decades,
past and dead, have buried deep
that date!

We rise to newer things—to greater
World-relationships.
Let "Mother-love" be ever on thy lip
We are one blood, one tongue, one
life, one Nationality.
Then let our intercourse be brought
to deep reality!

We two—America and England—
must stand as guardians of the
World—
To keep the flag of "Liberty" unfurled!
Then let us stand so close, so true,
so splendidly agreed,
That wars will cease in all the
World, and men enjoy the
rights of men—free and forever
freed!

—F. E. Aitkins.

THE "IF" IN THRIFT

Many a man could be independently rich today IF at a certain time in his life he had a little ready money to invest. Real Thrift isn't being miserly and hoarding your money. It is buying wisely things that you need and wasting nothing. IF you start that idea today you won't have regrets in days to come. H. C.

"OUT OF DANGER"

Then to get back health and strength, is the next thing for Doctor and patient after grippe, influenza, or other wasting diseases.

A good tonic is needed and the Medical Profession is a unit in endorsing Iron, Nux Vomica, Gentian, Capsicum and Zinc Phosphide for this purpose. Many preparations containing Iron, however, are very constipating but this is overcome in Dr. Chase's Blood and Nerve Tablets by the addition of Aloin.

These Tablets contain all of the above important tonics in easily assimilative form and have no harmful or unpleasant after effects.

These tablets are safe, sure health builders and their use is strongly advised just at this time.

Weigh yourself before taking them and note how quickly they commence to do good.

Nearly every druggist sells Chase's Blood and Nerve Tablets at sixty cents a box. Special strength, ninety cents. Adv.

Constant readers of these thankful Nerv-Worth endorsements have not failed to note how often they use that eloquent word "wonderful." Mrs. Tribbetts used it in her statement to Ashland's Nerv-Worth druggist and the term was fully justified: Steele & Lawrence—I have been troubled with nervousness for the past two years. I could not rest at night and I was in a generally run-down condition. I was advised by a number of my friends to take Nerv-Worth. After taking one bottle I can certainly see wonderful results and feel sure that it will cure me. I am purchasing the second bottle today. I can truthfully recommend Nerv-Worth to anyone.

especially happy day this year and is calling upon all the organizations in the state to help make this possible.

The club women of Ohio are asked to fill thirty thousand boxes with candy and nuts. All boxes must be returned to the committee at Camp Sherman not later than December twentieth. Will you not communicate with Capt. James C. Notts, Camp Sherman Community House at once telling him how many of these boxes your club will fill?

Try to think of every boy who must spend this day of days away from his loved ones as your own, and do your bit to show your gratitude to him for the sacrifice he has been making for his country.

It is planned that the largest Christmas tree in the state will be placed in front of the Community Building.

Do not delay. Get your share of these thirty thousand boxes. There are approximately sixty thousand club women in the state Federation, but do more than your share, for "Tis true 'tis pity, and pity 'tis 'tis true" there are some who will do less.

IN URGENT NEED OF OLD CLOTHING

When the call for clothing for the Belgians came to this community it was answered most loyally by almost every citizen of the county. Homes were stripped of every article of clothing that would be of service to these suffering and desolate victims of the war and it was a matter of local pride that our county responded so generously.

But now comes the call of our own poor and it is very urgent. Some families in town are in dire need of warm clothing for the coming cold weather. Investigations of the past week have revealed some very bad conditions.

It is useless to expect our boys and girls to be moral, honest and to spend their evenings at home when home conditions are repulsive and they do not have sufficient food and clothing.

Some cases have been found to be unworthy of help, but a great many have been found, after careful investigation, to be entirely worthy. Therefore an urgent appeal to the good people of Washington is made and those active in this helpful work feel sure of a response.

The call goes out for any useful article of clothing especially for boys and girls of school age. Please bring them to the Civilian Relief office at the Red Cross rooms in charge of Miss Mary Robinson or to the office of Mrs. G. Bruce Franklin in the basement of the Court House.

Mrs. Franklin as Probation officer does not deal with relief cases, but in making family investigations to find out who or what is responsible for a child's delinquency, she has found in several instances during the past week that lack of food and clothing are the chief causes.

FAYETTE MAN GOT SECRETS OF THE HUNS

Wireless Operator Lynn Matthews, Receives Priceless Information From German Wireless Plants in Mexico and Germany While on Mexican Border

Lyn Matthews, son of Geo. Matthews, of Jeffersonville, one of the best wireless operators in America, has been spending a short period at home, leaving Friday afternoon to sail for the Philippine Islands where he will be engaged as a wireless operator in the nation's great plant at Manila.

During the past 17 months the young man has been stationed at San Antonio, Texas, where Uncle Sam has a powerful wireless station, and where, according to information given out by Matthews, the American government in recent months has picked up some mighty valuable information in the way of secrets relating to German movements in the war which were checked in short order.

Operator Matthews invariably was on duty at night, and at a certain hour the big German wireless plant six miles outside of Mexico city, would begin sending messages in code, and for just two hours each night this was kept up, the information transmitted invariably relating to submarine movements, and this code was decoded by the American intelligence bureau and the information turned over to the proper authorities to insure speedy action.

The great plant near Mexico city, operated by German experts, communicated with the greatest of all German wireless stations at Nauens, Germany, and the "O. K." from that station was usually not sent until the following morning after ample time had been given to decipher the message.

For months the messages from the German station were thus intercepted and upon one occasion information worth millions of dollars to the American government is said to have been intercepted and used to proper advantage.

Mr. Matthews was accompanied to this city Friday afternoon by his father and mother, and left on the 3:28 B. & O. for port of embarkation for the Philippine Islands.

SHIP LOSSES BARED
(By Associated Press)
Washington, November 22.—From the beginning of the European war to the day of the signing of the armistice the American merchant marine lost through acts of the Central Powers, 145 vessels of 354,449 gross tons, involving the loss of 775 lives. Including lives lost by the sinking of army and navy vessels, the total passes the thousand mark.

The major destruction was caused by submarines. In the four and a quarter years of the war 51 vessels of American registry were torpedoed and 37 sunk by gunfire. Only seven were lost by striking mines.

Only 19 vessels were sunk previous to the entrance of the United States into the war, the losses from April 6, 1917, to November 11 last being 128.

The tactics of the Germans in using the costly torpedoes only upon the larger vessels was illustrated by the fact that the torpedoed vessels averaged about 4,500 gross tons, while those sunk by gunfire averaged about 2,200 tons.

A large portion of the ships sunk by gunfire were sailing vessels which could offer no resistance and which were abandoned by their crews when the U-boats appeared. Of the 775 lives lost by the merchant seamen, only one life was lost in the destruction of the 60 sailing vessels.

FINLAND TOWN BOMBARDED
(By Associated Press)
Copenhagen, November 22.—The Politiken Helsingfors correspondent reports a three-hours' bombardment of Viikinka, Finland, by three Russian warships flying the red flag of Kornstadt. The dispatch adds that the Finnish government has finished the evacuation of the frontier districts, fearing hostilities.

LIGHTLESS NIGHTS OVER
(By Associated Press)
Washington, Nov. 22.—"Lightless nights," made necessary to save fuel for war work, will end today, except in states where fuel administrators may decide to continue the regulations. This announcement was made last night by Fuel Administrator Garfield. Removal of other restriction on the consumption of coal will follow, Dr. Garfield said, and voluntary conservation through requests made of the public will be substituted.

The "lightless nights" order which first was issued last winter, recently was rescinded in a number of states. Its enforcement will now be at the discretion of state fuel administrators, who are instructed to be guided by the fuel situation in their respective states.

Funeral arrangements will be made later.

DEATHS

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work.

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, griping cathartics are derived from Dr. Edwards' Olive Tablets without griping, pain or any disagreeable effects.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.

Dr. Edwards' Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 10c and 25c per box. All druggists.

80 YEARS OLD—FIT AS A FIDDLE

"I had a bad case of stomach and bowel trouble that four doctors could not help. Suffered all kinds of pain, was filled with gas and constipated for years. I was advised to use Mayr's Wonderful Remedy. Since taking a course of it four years ago my trouble has disappeared and have felt like a young man. Although 80 years old, I feel fit as a fiddle." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Blackmer & Tanquary, Frank Christopher and druggists everywhere. Adv.
